Survey Procedure:

Research at the McPherson Co. Public works vault shows Mohawk road as a 33' r/w and 16th Ave. as a 50' r/w.

Previous Surveys-Garber, May 1980 and Heller, April 2009.

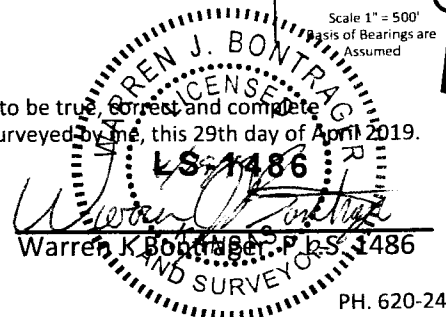

Set the E 1/4 corner from coordinates provided from McPherson Co. Public works department. The E 1/16 & N 1/4 corners are calc'd on even splits. Mag nails were set due to the amount of traffic flow on the road. The breakdown of the Quarter hit very close to the previous survey.
