

Surveys: Plans for the Rock Island Rail Road, Durham to Galva, Kansas, Chief Engineers Office, Chicago, Illinois, dated 1915. Parcel in the Northwest 1/4 of Section 22, T19S-R2W by F.R. Rankin for E.R. Williams, no date. Note: The parcel for E.R. Williams developed into Williams Addition to the City of Galva.

Field Procedure: I searched for the following monuments: The North 1/4 Corner, Northwest Corner, West 1/4 Corner, and the Center West 1/16 Corner, all in Section 22, T17S-R5W. I found these corners in good condition. I searched for the Northwest 1/16 corner and did not recover it. I set the West 1/16 of the Northwest quarter on line and 1/2 way between the North 1/4 corner and the Northwest corner of said section 22. I found three property pins in Williams Subdivision but did not use their positions to set the property pins for parcels surveyed. I used a Nikon DTM-420 total station to read distances and turn angles. I set 1/2"x 24" rebars with I.D. caps at the property pins I monumented.
