

Surveys: G.L.O. survey performed August 6-11, 1866 by John P. Sleeper for the subdivision of Township 19 South, Range 5 West of the 6th Principal Meridian. Survey performed by K.D.O.T. for K-56 highway 1991. Section corner references found at the McPherson County Public Works vault.

Field Procedure: I searched for monuments for the East, Southeast and South section corners of Section 29, T19S-R5W. I found monuments for the East, Southeast and South section corners of Section 29, T19S-R5W in good condition. I then set 1/2" x 24" rebars to monument the property corners for the parcel this survey was made for. The South side of the parcel lies against a 33' road R/W on the North side of the section line for the E-W public road. All angles and distances read with a Nikon DTM-420 total station.
