

**Field Procedure:** I searched for the N.W., N.1/4, N.E., E.1/4, Center, W.1/4, S.W., S.1/4, and S.E. corners of section 27, T20S-R2W. I found the N.W., N.E., E.1/4, and S.1/4 corners in good condition. I excavated for the S.1/4, W.1/4 and Center corners but did not find the monuments listed in the county records at the W.1/4 and the Center corners of said section. I found a 2" x 9" x 11" limestone at the S. 1/4 corner lying down. I set this corner up and placed a 5/8" x 24" rebar with plastic I.D. cap on the S. side of stone @ middle, 0.7' deep @ position found. After measuring the physical evidence along with found evidence I determined the directions and distances on the face of the Plat of Survey this survey.
