

1-7-39

Board of Directors,
School District #72,
Moundridge, Kans.,

I am attaching plat of a survey I made
for you 1-6-39 to locate a tract of land you have in the
SW $\frac{1}{4}$ of Sec 23-21-2.

The full lines show the tract as described in
the deed. The broken lines show what the owner of the
tract south and east of yours would like.

Since the description of the point of beginning
is faulty I would suggest a description that would tie
this tract to the south quarter corner instead of the
southwest corner of the section. After you have decided
what agreement you will make with Mr Baer I will furn-
ish this description if you wish.

I am enclosing bill for my work.

Very truly yours,

Guy Hall, County Engineer.
